**DocuComp LLC Partners with McKesson's InterQual Clinical Evidenced Based
Criteria Support**

For Immediate Release

September 9, 2011 Cape Charles, VA. DocuComp LLC, the premier Healthcare and Compliance Education organization, announced the completion of training and implementation of McKesson's InterQual line of evidence based clinical decision support criteria products.

The implementation of McKesson's InterQual is quite a distinction for the widely acclaimed DocuComp LLC. Their expertise in Clinical Documentation and their long experience in educating Physicians, Nurses, Healthcare Administrators, Case Managers, Revenue Cycle personnel and clinical Coders through innovative Educational and Certification programs is already widely acclaimed and used extensively.

Dr. Betty Bibbins, MD, President, Chief Medical Officer, Executive Physician Educator and the driving force that fuels DocuComp LLC, never content to rest on past achievements, has spent two years in the process of licensing, training and the final implementation of InterQual. The integration of InterQual elevates the superior standards that DocuComp LLC represents and most importantly, creates a common clinical Documentation Language that bridges the gap and increases collaboration with governmental regulatory contractors. Partnering with McKesson's InterQual will allow DocuComp LLC to provide their clients much greater efficacy, compliance and significantly reduce the audit review process time allowing their clients to continue the practice of medicine.

This year McKesson's InterQual celebrates 35 years, as the Healthcare Industry's leading clinical decision support organization. Their pool of experts include 1,100 physicians, nurses, psychologists, chiropractors, social workers, physical and occupational therapist managing the best clinical evidence available. McKesson's InterQual is well known for the unrivaled clinical integrity found in their market-leading products. The Centers for Medicare and Medicaid services (CMS) contractors have utilized InterQual Criteria for 11 consecutive years to conduct their audit reviews.
